Knowledge is key, especially for a hot-spray system.  
Learn from the professional and acquire practical knowledge for the justification of your projects.

Jos de Graauw will be your trainer, with 20 years of field application experience and a BDA-intron certified liner Inspector, this will be your go-to person to conduct a training.

Learn all the secrets of a good polyurea membrane, pure or hybrid, the basic handling and maintenance of a hot projection machine, and spraying techniques.

Do you know what new materials are used in polyurea application?  
Learn or perfect your techniques

# TARGET AUDIENCES

## Polyurea Spray Course

At Krypton Chemical we do not just want to offer the latest technology in our products.

We also want to offer our clients all the knowledge to make the application a complete success.

We also want to offer our clients all the knowledge to make the application a complete success. For this reason, we created our Technical and Training Centers, where we offer trainings and training on the applications with our products.

# POLYUREA SPRAY COURSE

## The course includes :

Material for the course, coverall, mask, gloves and glasses. Lunch  
The tech centre in Holland is filled with a variety of guns, machines  
and material.

The advanced training of the applicator is filled by volume of assistants. We limit the number of people to 10 to give everyone the necessary attention.

All courses take place at the Zeeland training center.

The classroom is interactive, the theoretical parts are made through personal devices, so the learning is very individual and is channeled towards the collection of knowledge.

The duration of the courses is from 8:00 a.m. at 4:30 p.m.
